

Bottle Filling Fountain

Product Code: BFFWM

Value Stainless Steel Bottle Filler

Product Code BFFWM

Value stainless steel wall mounted bottle filler fountain complete with swan neck bottle filling tap, waste and wall bracket.

Manufactured from grade 304 stainless steel the bottle filler offers an entry level product to supply point of source drinking water. The value bottle filling fountain is supplied with a rounded front for safety and a deep bowl to stop splashing.

The simple wall mounted design allows the bottle filler to be installed at any height to suit the requirement of different age users.

The WRAS approved swan neck bottle filling tap is simple and easy to use and the self closing feature helps to prevent the tap being left running.

To ensure the proper functioning and longevity of this unit, a Y-strainer must be installed as part of the water supply system. The Y-strainer is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer will result in the warranty being void.
