Foot Operated Bottle Filler

Product Code: FOPBF

Wall Mounted Foot Operated Bottle Filler

Product Code FOPBF

The stainless steel surface mounted bottle filler offers the facility to refill re-usable drinking bottles in a compact design that is hands free. The surface mounted design allows installation onto any wall where there is no service duct or the ability to recess into the wall. The vandal resistant design is suitable for high traffic areas where supervision isn't always available. The large bottle filling aperture is suitable for filling large refillable bottles.

Dimensions & Specifications:

Width: 350mm.
Depth: 85mm from the wall.
Height: 545mm.

To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

Bottle Aperture:

Height: 335mm
Width: 125mm

Pipe Shroud:

500 - 900mm

Material: 1.2mm thick stainless steel.

Bottle filling tap: WRAS approved press button time flow bottle filling tap.

Supplied With:

Integral wall fixing points.
32mm flush grated waste fitting.
Flexible waste pipe.
Wras approved foot valve, water outlet fittings and pipework.

Delivery:

In stock usually 2 to 3 working days.
