Multi Bottle Filling Trough (Non-Chilled)

Product Code: MBFT

Multi Bottle Filler

Product Code MBFT

The multi bottle filling unit incorporates 3 press button time flow bottle filling taps and is ideal for areas where multiple users require bottle filling facilities. The bottle filler is supplied with a hinged grating to aid cleaning which is held in place with security screws to avoid tampering.

To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

Dimensions & Specifications:

Width: 1000mm wide
Depth: 245mm front to back
Height: 446mm high
