

Outdoor Bottle Filling Station

Product Code: M-OBF

Outdoor Bottle Filling Station

Product Code M-OBF

The Murdock outdoor bottle filler is manufactured from heavy duty stainless steel with either a stainless steel or a green powder coated finish. Supplied with a manual push button valve making the bottle filling station easy to operate and a perfect way to re-fill water bottles and helps to reduce plastic bottle waste.

With recycling and plastic bottle waste making headlines and on the top of agendas of local councils and water companies this simple stylish bottle filler makes the perfect choice for all indoor and outdoor locations.

To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.
