

Multiple Drinking Bottle Filling Station Trough

Product Code: MBFS

Water Bottle Filling Station

Product Code MBFS

Stainless steel drinking water bottle filling station with multiple swan neck bottle filling taps, suitable for filling re-usable water bottles or cups.

The bottle filling station is manufactured in one piece from 1.2mm thick stainless steel to ensure vandal resistance and durability. The troughs are available in four standard lengths with 2, 3, 4 and 5 swan neck bottle filling taps. 1200mm with two bottle fillers - 1500mm with three bottle fillers - 1800mm with four bottle fillers - 2400mm with five bottle fillers.

To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.
