Floorstanding Drinking Fountain With WRAS Tap - Adult Height (Non-Chilled)

Product Code: DFFSA-WRAS

WRAS Compliant Adult Height Drinking Fountains

Product Code DFFSA-WRAS

The WRAS compliant floor standing adult height drinking water fountains are wall and floor mounted and provide a strong, attractive, easily cleaned solution for delivering drinking water. The floor standing design helps make the unit vandal resistant whilst concealing the waste and water supply pipework, providing a neat, safe installation.

The water bubbler tap has been tested and approved by the Water Research Advisory Scheme to ensure it complies with the Water Supply (Water Fittings) Regulations or Scottish Byelaws. The press button time flow bubbler tap is located away from the back wall, making it easier for the user to bend down to drink. The self-closing valve helps prevents water wastage.

The smooth radius design helps prevent injury from sharp corners, and along with the 75mm rear upstand aids cleaning which improves hygiene. The compact design allows the fountain to be easily installed at any suitable location.

Manufactured from 1.6mm thick grade 304 stainless steel with a full height shroud, the WRAS approved drinking fountain is very robust and resistant to vandalism. The fully removable shroud conceals the waste and supply pipework for extra vandal resistance and safety, and is retained by security screws. Polished to a satin finish, the adult height fountain is easily maintained, ensuring a long-lasting finish.

To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

Dimensions & Specifications:

Width: 305mm.
Depth: 350mm from wall.
Height: 915mm plus 75mm rear upstand.

Material: 1.6mm thick - grade 304 stainless steel.

Bubbler tap: WRAS approved bubbler tap.

Recommended Mounting Heights For Drinking Fountains:

Adult: 900 to 915mm.
