

Contemporary Outdoor Drinking Fountain

Product Code: GRC75-UK

Coloured Outdoor Wall Mounted Drinking Water Fountain

Product Code GRC75-UK

The Murdock GRC-75 outdoor wall mounted drinking fountain is manufactured from 2mm thick stainless steel for extra vandal resistance and durability. The green coated finish with stainless steel bowl will blend in to most environments whilst giving a contemporary appearance.

The drinking fountain is wall mounted with the water supply and waste routed through the wall bracket. The fountain complies with DDA guidelines for disabled users when mounted at the correct height.

To ensure the proper functioning and longevity of this unit, a Y-strainer must be installed as part of the water supply system. The Y-strainer is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer will result in the warranty being void.
