WRAS Approved Handsfree Bubbler Tap

Product Code: HANDSFREE-BUBBLER

Handsfree Replacement Bubbler Valve Tap

Product Code HANDSFREE-BUBBLER

Our replacement handsfree drinking fountain bubbler valve tap is ideal to replace faulty taps on existing drinking water fountains. The bubbler is to be used with a foot pedal. The bubbler tap will fit most drinking fountains including our own.

To ensure the proper functioning and longevity of this unit, a Y-strainer must be installed as part of the water supply system. The Y-strainer is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer will result in the warranty being void.

Supplied with:

Chrome plated brass drinking fountain bubbler valve tap.
1/2" BSP tail.
1/2" brass back nut and rubber washer.
Adjustable flow control.

Delivery

From stock 1 to 2 working days.
